

DORIAN
COMMUNITY MARKETPLACE

Market Status

Vendors struggle to compete and generate revenue in today's highly competitive ecosystem.

Consumers face challenges in finding relevant products at fair prices with fast delivery.

Community leaders are seeking innovative ways to monetize their communities.

Market Status Current solutions

Global eCommerce platforms

Physical stores

Online stores

Social Networks

Vendors purchase products of interest across various channels, both physical and online.

Consumers often sell independently, competing directly against giant brands and retail chains.

Community leaders rely on unconventional platforms (e.g., Facebook Marketplace, WhatsApp, Instagram DMs, Google Forms) to sell products.

The Alternative

DORIAN

Dorian is an AI Based one-stop platform where **Consumers** can buy products easily, **Vendors** can improve their offerings and increase sales, And **Influencers** can monetize their community.

The Alternative **DORIAN**

Vendors can increase revenue by targeting their relevant audience, while getting actionable BI insights and improving their offer with Dorian AI.

Consumers can find and discover relevant products tailored to their interests, themes or location, Using Dorian AI Assistant.

Community leaders can monetize their communities via marketplace, connecting vendors and buyers based on followers interests and proximity.
